

# MANHATTAN LOUNGE BAR THE PLACE TO BE

**Inspired by a native New York jazz musician, the Manhattan Lounge Bar is a gathering place for everyone: locals, people who work in and around Zuidas and those just passing by. Whether you're looking to relax and unwind, catch up with friends and colleagues, enjoy live music – featuring some exceptional jazz singers! – or tune in to one of the many sport events, this bar is the place to be.**

Located on George Gershwinaan, the bar pays tribute to the street's name. In fact, the entire concept and inspiration for the Manhattan Lounge Bar came from the eponymous New York-born jazz musician, who composed for numerous films and Broadway musicals: George Gershwin. When relaunching the bar, its mission was to embrace this heritage and incorporate it into the design. But that's not all that

makes the Manhattan Lounge Bar unique. Leave your cares and daily pressures at the door: that's the guiding philosophy of the Manhattan Lounge Bar.

Stepping inside the lounge is like entering a soothing bubble where you can relax and celebrate. Their menu focuses on combining delicious seasonal flavours, value for money and shared dining

alongside all the classics. And no matter what you go-to drink is: a Martini, Negroni or even the namesake Manhattan, bar manager Alex is happy to mix it for you. Thanks to the Manhattan Bar team, no one ever leaves without a smile on their face.

Looking for your culture fix? Come along to one of the live jazz nights. Weather permitting, the next one will be hosted on the bar's outdoor terrace. If sport is more your scene, you can root for your favourite team at the Manhattan Lounge Bar. Aside from just stopping by for drinks and nibbles, you can also book the Manhattan Lounge Bar for events. Want to celebrate your birthday in style? Planning a company dinner? Get in touch to find out about the options for your perfect event. The Manhattan Lounge Bar is also a fantastic venue for the local community in Zuidas, from concerts to comedy night to fundraisers... The possibilities are endless!
